# We Support Our Troops! But Does Our Government?

---

- **not** when they deny Vietnam Veterans medical care from illnesses having to do with Agent Orange or WWII Veterans exposed to atomic radiation.
- **not** when on any given evening there are approximately 275,000 Veterans homeless and living on the streets.
- **not** when \$25 billion is cut from the requested aid for Veterans benefits and \$172 million from impact aid programs which provide school funding for children of military personnel.
- **not** when the Department of Veterans Affairs has been ordered to stop publicizing health benefits available to Veterans.
- **not** when they disregard the health of our soldiers *in harm's way* by exposing them to the hazards of Depleted Uranium munitions.
- **not** when 200,000 troops who fought in the Gulf War in 1991 and are suffering from Gulf War illnesses now are fighting to get the health care and the compensation they deserve.

---

**The War Doesn't End When Our Troops Come Home  
and Patriotism Doesn't Mean Just Waving A Flag.  
Truly Support Our Troops - Call Your Congressperson.**

---

Prepared and distributed in the public interest. [CircleVision.org](http://CircleVision.org). Connect. Inform. Educate.
